Trivia Night

The Vermillion Public Library is hosting a brand-new Trivia Night on **Wednesday, July 24th!** This free event is for the adults, but families with children are welcome to join in. The theme for this inaugural Trivia Night is Space, so come prepared to answer questions about the mysterious universe our planet calls home. Refreshments will be provided, and the winning team will receive a prize!

Teams can have anywhere from one to five people each. Bring your teammates with you, join a team when you get here, or take on the competition alone! Starts at **6:30 pm** in the Kozak Room.

This event is free and open to the public.

Summer Reading Program

The Summer Reading Program is in full swing, and the fun at the library will continue through the last Thursday in July. We are celebrating the theme, A Universe of Stories, which commemorates the 50th anniversary of the Apollo Moon Landing. Learn more about the Summer Reading Program on our website at www.vermillionpubliclibrary.org/summer-reading-program.

This month we will continue to host fun entertainers, including a professional storyteller, a magician, and a musical performance! There will be free movies at the Coyote Twin, art clubs, LEGO clubs, makerspace workshops (for kids 8 and older), story times, and an end of program pool party at Prentis Plunge on **July 25th**.

If you haven't registered your child, please do so on our website today!

Lunch & Learn: Apollo's Daring Mission

Join us at the library for Lunch & Learn! In conjunction with this year's Summer Reading Program theme, A Universe of Stories, we will be viewing a documentary that chronicles NASA's Apollo 8 mission. Watch this 60-minute documentary in the Kozak Room while you eat your lunch! Refreshments will be served, but guests are of course welcome to bring their own food.

In *Apollo's Daring Mission*, Apollo astronauts and engineers tell the inside story of Apollo 8, the first manned mission to the moon. The U.S. space program suffered a bitter setback when Apollo 1 ended in a deadly fire during a pre-launch run-through. In disarray, and threatened by the prospect of a Soviet Union victory in the space race, NASA decided upon a radical and risky change of plan: turn Apollo 8 from an earth-orbit mission into a daring sprint to the moon while relying on untried new technologies.

Watch this free documentary on **Friday, July 5th at noon!**

Teen Harry Potter Event

Attention muggles! The library will be celebrating the magic that is the Harry Potter universe. Join us as we hold our own Triwizard Tournament and a viewing of Harry Potter and the Goblet of Fire. **Saturday, July 6th at 1:00 pm.** Everyone is welcome, but please be advised the movie is rated PG-13.
