

Printmaking

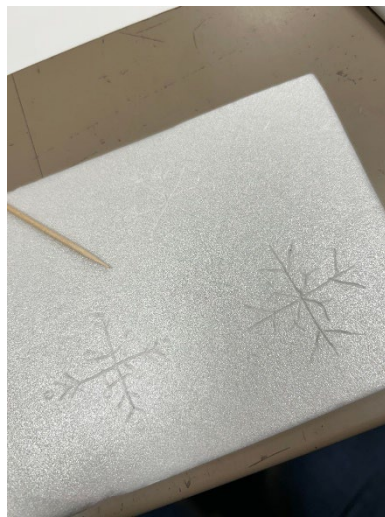

Included in kit: Styrofoam, toothpick, cardstock

Not Included: wet paper towels, water-based markers

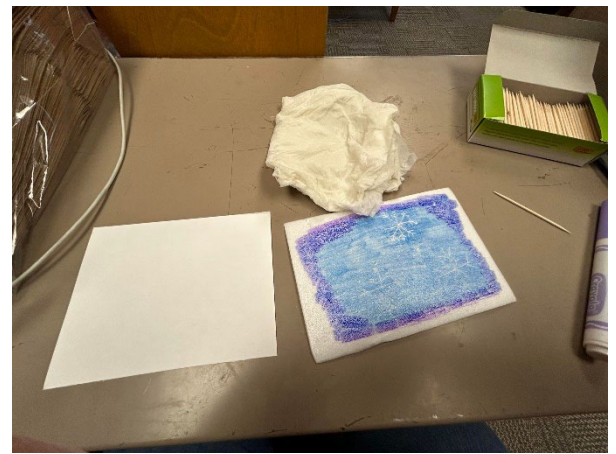

1. Using either the toothpick or a pencil, make sure not to press through the Styrofoam, create whatever picture you would like.
2. When done, use only water-based markers, color your picture!
3. Using the wet paper towels, soak your cardstock, then place the cardstock, wet side, directly onto the marker.
4. Press firmly, almost like you are doing a temporary tattoo. then remove the cardstock and the picture should be transferred!

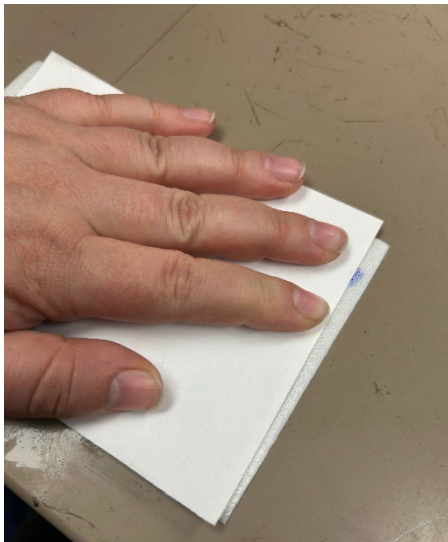

Supplies

Design with your toothpick

Color your picture and wet your paper

Press firmly!

Your picture should be transferred
